WORK EXPERIENCE

Founder & Shopify Expert | Flickkon Digital Agency

January 2020 – Present

Remote (India / UK)

Full-service digital marketing agency working collaboratively across development, creative, and strategy to deliver eCommerce and digital marketing solutions for 50+ consumer brands globally. Australian clients spanning furniture, fashion, toys, jewellery, wellness, and lifestyle — alongside brands across India, UK, USA, Canada, EU, South America, and Japan.

eCommerce & Shopify

- Built and optimised 50+ Shopify and Shopify Plus stores across fashion, wellness, beauty, and consumer goods sectors
- Developed custom Shopify themes achieving conversion rates up to 4.5%, well above the 2–3% industry average
- Provided strategic consultation on product positioning, analytics interpretation, and eCommerce scaling

- Created reusable funnel and theme templates enabling rapid store deployment for new clients

Social Media, Content Creation & Influencer Management

- Planned and executed organic and paid social strategies across Instagram, TikTok, Facebook, YouTube, and Pinterest
- Grew a YouTube channel from zero through content strategy, platform SEO, and consistent audience engagement
- Created and edited video content using CapCut and Adobe Premiere Pro; designed brand assets in Canva and Photoshop
- Managed content calendars and community engagement aligned to wider campaign objectives and brand guidelines
- Briefed, coordinated, and reported on influencer and content creator campaigns driving product awareness and sales

Digital Marketing & Paid Media

- Managed end-to-end paid advertising campaigns across Google Ads and Meta delivering consistent ROAS improvements
- Tripled organic traffic for a health and wellness brand through technical SEO, structured content strategy, and analytics-driven refinement
- Built and managed Google Analytics 4 for 30+ clients, translating performance data into actionable recommendations
- Executed email marketing campaigns via Klaviyo and Mailchimp including segmentation, A/B testing, and automation flows

AI, Automation & Client Strategy

- Built GPT-powered automation workflows using ChatGPT, Claude, and Gemini for content generation, ad copy, and customer support
- Implemented marketing automation systems using n8n and Zapier, reducing client content workload by approximately 60%
- Collaborated with designers, developers, and copywriters within an agency team structure to deliver integrated campaigns across global markets including Australia, UK, USA, Canada, EU, South America, and Japan
